

# Horizon Chutes Pvt. Ltd. – Case Study

## COMPANY

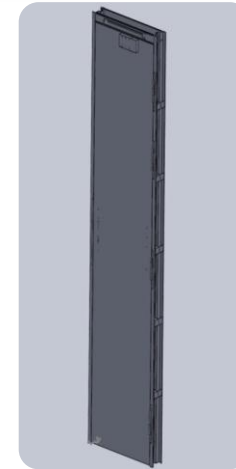

Horizon Chutes Pvt. Ltd. provides complete solution for waste management systems for infrastructure projects to domestic and overseas. Due to its contribution to the eco friendly systems to civic services , it has bagged the prestigious “G.S. Parkhe Industrial Merit Award” .

## CHALLENGE

As our products are quite dynamic in nature , development of different products on 2D consumed lot of time which gave rise to low productivity. Having issues to modify and update the designs quickly based on customers requirement consumed lot of time as it has to be manually.

## SOLIDWORKS BENEFITS

- Shortened design cycles by 50 percent.
- Accelerated time-to-market by 30 percent.
- Cut development costs by 30 percent.
- Reduced prototyping cycles by 30 percent.

“ Solid works has made our life easy with respect to variety of parameters that are changing every time in our products and it acted as interfaces with our production facility.”

Mahesh Limaye  
Director
