

Team Autotech India Pvt Ltd.

Company :

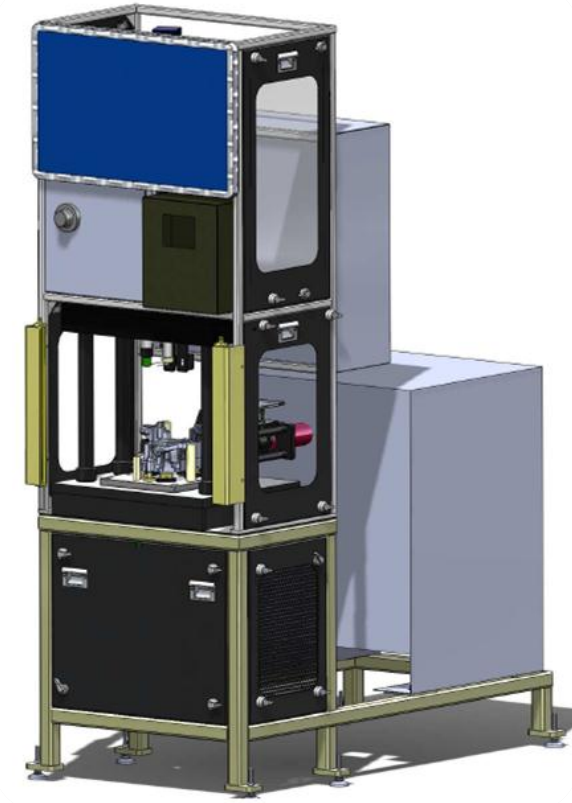

Team Autotech India Pvt Ltd., was founded in the year 2005 to manufacture Special Purpose Machines, Pick and Place Units, Assembly cells, Test Rigs, Low cost automations, Dry and Wet leak testing equipment's, eye-wear laboratory equipment's, assembly line for electronic industries equipped with suitable PLC/Servo based control systems.

Challenge:

- Difficult to comprehend the entire assembly design and visualization was virtually impossible.
- Interaction and communicating with the customers was very challenging using 2D software.
- Creation of BOM manually was time-consuming.
- Timely delivery was an issue.

Key Benefits:

- Shortened design cycle by 60%
- Development and prototyping costs has reduced by 70%
- Reduced design errors by 70%
- Accelerated time-to-market by 70%
