

Unique Industrial Handlers - Nashik

COMPANY

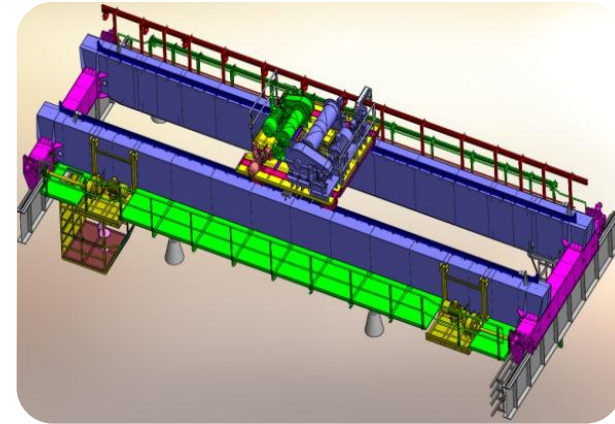

Unique Industrial Handlers Private Ltd is an ISO 9001-2000 certified company offering material handling solutions with a wide range of High Capacity Cranes and lifting platforms applications to manufacturing plants and infrastructure projects serving domestic as well as overseas clients.

CHALLENGE

Reusability of design data. Handling large assemblies and check for interference. Reduce rework and design faster and accurate components. Faster delivery schedules.

SOLIDWORKS BENEFITS

- Shortened design cycles by 25 percent.
- Accelerated time-to-market by 25 percent.
- Reduced design errors by 35 percent.

“After deploying SolidWorks, our design time is reduced drastically. SolidWorks tools allow us flexibility, trials & data re-use for large assemblies. This has boosted our confidence to take on bigger challenges.”

*M. N. Deshpande
Sr. Design Manager*
